### Tik-Tak-Toe Game | *Java*

November 2022

- Simple Game that allows two people on the same machine to play a game of Tik-Tac-Toe
- Game has two players, Player 1 and Player 2.
- The player inputs a 1 for Rock, 2 for Scissors, or a 3 for Paper.
- After Player 1 and Player 2 make their input, the program works through nested if/else statements to determine the winner.

### Personal Website | *HTML/CSS, GitHub*

August 2023 – Present

- Started development on my personal website ([webpages.charlotte.edu/nhayes12](http://webpages.charlotte.edu/nhayes12))
- The website consists of a course page for a course I am taking with corresponding pages made for the class.
- Front page to website has links to my course page and relevant links to contact me.
- For development I used VS Code, FileZilla was used to transfer files from my local computer to the website, and GitHib was used for version control of the website.
